Can I withdraw my LP tokens?

- Yes; until 12pm on the 21st February est (usa)
- You can see the time here and compare it to your time.
  https://www.worldtimebuddy.com/?pl=1&lid=5&h=5&hf=1
- There is no repercussions of doing this.
- You can do so here https://thetaswap.io/pool
  - Click your pool → Click Remove → choose 100% → allow in MetaMask. You will receive both Tbill & Tfuel.
  - You won't be able to swap Tbill for Tfuel. The Tbill will be recognised as IL.

What about my IL payout & 8% annualized payment?

- After the audit takes place (26th feb) you can elect as to how you would like it paid out. Ie tfuel or Gnote or a % of either
- Your IL will be paid out on the 13 march over a period of dates depending on the payout options you choose.
- If you choose to be paid your IL in Gnote the full amount will be paid out in full on march 13th. Note* This is the last day Gnote will be minted so if you see value in the project it's time to snap some up.
- 8% will be paid out once all parties have received their IL payments.
- The IL options page will be live here https://gpool.io/metamask from the 27th feb - 12th march for your best options for you moving forward.

I Didn't withdraw so what happens to my Tfuel in the LP

- You will still be made whole, it will just be recognised as total IL and you can opt as to how you wish to have that paid out as a % in GNote or Tfuel
- You can do this here https://gpool.io/metamask between the feb 27th - 12th march.
- You won't miss out or lose your investment.

What about the Tbill I have in my wallet?

- That will also be counted towards IL and credited in whatever token you choose at the time of pay out

What about my NFT?

- It can be 'burnt' for GDrop credits that have no monetary value but are redeemable in the Gworld ecosystem should you wish to.
- IF the community decides to do another Tbill LP later on the NFT is likely to retain value.
- More information to come. It is valued higher than current market value though.

I missed the opt in option between 13th & 27th, Did I miss out?
- No, you will have missed the option to acquire the Gnote payout option as its no longer being minted after the 13th of march.
- There will be 2 week cycle options made available.

Do I qualify for the 8% annualized ?

- If you staked your funds for the required 12 months then yes you will qualify for this.
- This will be paid out after everyones recognised IL is paid out?

Will it take long to get paid back?

- IL is being prioritized and will be released over the following dates: March 13th, March 27th and April 10th.

What token will I be paid out in?

- You will be given the option to choose what % you would like to be paid out with from Tfuel or Gnote.

What about us that have a HWM and trust the process?

- You will receive an NFT that's utility has not yet been decided. Mint date to be confirmed.

Will there be a Tbill LP 2.0?

- It will be put to a community vote in the future.
- Tbill NFT's will be recognised if this goes ahead.

Notes;
So the benefit of taking your Funds out of the LP now is that you have access to the Tfuel today to do as you need. If you don't **YOU WILL** still have your investment +8% returned provided you qualify for the 8% as addressed above. So no need to panic.
